SUMMARY

Legal technologist and recent graduate with a dual B.Sc. (Data Science) + LL.B. (Hons.), combining legal domain expertise with hands-on technical capability in AI workflows, LLM evaluation, and legal process automation. Proven track record across a Tier-1 Indian law firm's innovation team and two international legal tech engagements (Dubai and the US). Brings a rare combination of legal reasoning and technical execution to legal engineering, innovation, and implementation roles.

EXPERIENCE

Strategy & Implementation Consultant (Freelance) | Aluma Solutions | Dubai (Remote) *Dec 2025 – May 2026*

- Lead end-to-end deployment of a legal operations platform (LawVu) for enterprise clients across the Middle East, managing full project lifecycle from requirements gathering and stakeholder alignment through QA and go-live.
- Partner with founding team and engineers to define business rules, validation logic, and workflow structures for a legal spend management system in active commercial development.

AI Workflow Consultant (Freelance) | Legal+AI | United States (Remote) *Nov 2025 – Dec 2025*

- Designed structured process frameworks to improve AI output reliability for legal clients; developed playbooks adopted across multiple project teams, standardising delivery and accelerating execution timelines.

Innovation Intern — Digital & Technology Team | Khaitan & Co | Bengaluru, India *Jun 2025*

- Diagnosed inefficiencies in contract review workflows and built an AI-powered clause extraction pipeline, improving analysis throughput across transactional practice groups.
- Designed internal document automation workflows and evaluated LLM output quality using Python-based testing scripts, benchmarking model performance against defined accuracy thresholds.

Innovation Intern — Digital & Technology Team (Returned) | Khaitan & Co | Bengaluru, India *Mar – Apr 2026*

- Developed AI agent workflow prototypes and structured prompt engineering frameworks; conducted systematic evaluation of LLM-based systems and delivered findings to the innovation team.

M&A Strategy Analyst (Virtual Programme) | Latham & Watkins | Remote *Jan 2025*

- Analysed transaction documents for a simulated takeover, identifying commercial risks and clause-level deal strategy recommendations; prepared board-level materials synthesising legal and commercial considerations into executive output.

Legal & Compliance Analyst Intern | SIDBI | Jaipur, India *Jan 2023*

- Analysed forensic audit reports and banking documentation to assess compliance risk in a working capital facility using structured analytical frameworks.

EDUCATION

B.Sc. (Data Science) + LL.B. (Hons.) — Integrated 5-Year Programme *Sep 2021 – Jun 2026*

National Forensic Sciences University (NFSU), Gandhinagar CGPA: 8.0 / 10 | Specialisation: Corporate Law & Data Science

SKILLS

AI & Legal Tech: LLM Evaluation, Prompt Engineering, AI Agent Workflows, Workflow Automation, Contract Automation, Legal Process Optimisation, LawVu, Document Processing

Analytics & Technical: Python, Data Analysis, Statistical Analysis, Web Scraping, QA & Testing, Process Improvement

Legal & Domain: Contract Analysis, M&A Due Diligence, Regulatory Research, Compliance, Risk Assessment, Commercial Law, Legal Innovation

Consulting & Delivery: Stakeholder Management, Requirements Gathering, Cross-functional Execution, Structured Problem Solving, Business Analysis
